PREFACE

This volume, Maps and Demographic Statistics for Selected Mother Tongue Groups, (Ontario), 1981, has been produced for the Ethnocultural Data Base of the Ontario Ministry of Citizenship and Culture as part of its Multicultural Program, in support of the ministry's lead role in multiculturalism. This updates a similar publication, based on the 1976 census with additional tables.

The major purpose of the Ethnocultural Data Base is to provide the Ontario Government with information about the patterns of residential settlement and the socio-demographic characteristics of Ontario's ethnocultural groups. As well, the information provided in this publication is expected to be helpful to other levels of government, business and industry, community organizations and agencies, post-secondary institutions, and the public generally.

The data included in this volume were compiled under the supervision of Dorene E. Jacobs, Research Officer, and Maryelle Tetreault, Assistant Research Officer, Multiculturalism and Citizenship Division, Ministry of Citizenship and Culture. The computerized tables were developed by Terry Brand with assistance from Melissa Breakwell. The data were obtained from Statistics Canada with the assistance of R.N. Dalal, E.P. McCoy and A.A. Kunachowicz, Ontario Ministry of Treasury and Economics.

Additional copies may be obtained from the Ontario Government Bookstore. Also on sale there are a series of publications (tables and maps) based on 1976 mother tongue data, for Ontario, as noted above, and nine Census Metropolitan Areas: Hamilton, Kitchener, London, Oshawa, Ottawa-Hull (Ontario part), St. Catharines-Niagara, Sudbury, Thunder Bay and Windsor.

The Mother Tongue Atlas of Metropolitan Toronto, Volume I, 1971 and 1976, providing maps, charts and tables of the largest mother tongue groups in Metropolitan Toronto together with detailed profiles for each of the six municipalities within Metro, is also available and an updated version, will be forthcoming together with additional publications based on the 1981 census.

The Ontario Government Bookstore is located at 880 Bay Street, Toronto for personal shopping. Out-of-town customers can write to Publications Services, 5th Floor, 880 Bay Street, Toronto, Ontario M7A 1N8. In Metro Toronto, call 965-6015. Outside Metro, dial 1-800-268-7540, toll free. In area code 705, call the operator and ask for Zenith 67200.

Further information about the Ethnocultural Data Base is available from:

CONTENTS

- I. Statistics Canada Definitions
- List of Ontario Census Divisions, 1981
- Maps:
 - Ontario Census Divisions, 1981 (Counties and Regional Municipalities) - base map
 - Non-English and non-French Mother Tongue Population, Ontario 1981
- Selected Mother Tongue Groups:
 - Chinese
 - Croatian, Serbian, Slovenian and other Yugoslav*
 - Czech and Slovak*
 - German
 - Greek
 - Indo-Pakistani
 - Italian
 - Magyar (Hungarian)
 - Native Indian
 - Netherlandic
 - Philippino
 - Polish
 - Portuguese
 - Spanish
 - Ukrainian
- III. Summary Tables of Demographic Statistics, Selected Mother Tongue Groups as well as English and French:
 - Table I: Distribution of Population by Selected Mother Tongue Groups, Age and Sex, 1981
 - 2: Distribution of Population 15 years and over by Selected Mother Tongue Groups, Age, Sex and Marital Status, 1981
 - 3: Distribution of Population 15 years and over by Selected Mother Tongue Groups, Age, Sex and Level of Education, 1981
 - 4: Distribution of Population 15 years and over by Selected Mother Tongue Groups, Age, Sex and Labour Force Activity, 1981
 - 5: Distribution of Experienced Labour Force by Selected Mother Tongue Groups, Age, Sex and Class of Worker, 1981
 - 6: Distribution of Experienced Labour Force by Selected Mother Tongue Groups, Age, Sex and Occupation, 1981
 - 7: Distribution of Population by Selected Mother Tongue Groups, Age, Sex and Place of Birth, 1981
 - 8: Distribution of Population 5 years and over by Selected Mother Tongue Groups, Age, Sex and Mobility Status, 1981
 - 9: Distribution of Families by Selected Mother Tongue Groups, Family Structure and age of Family Head, 1981
 - 10: Distribution of Families with Children at Home by Selected Mother Tongue Groups, and Age of Family Head, 1981

* Tabulations also available for the individual mother tongue groups.

NOTES Maps were produced by the Planning and Development Department, City of Toronto. The demographic statistics are based on the 1981 Census of Population and Households, enumerated by Statistics Canada.

STATISTICS CANADA DEFINITIONS

Mother Tongue: The language first learned and still understood. Infants who have not yet learned to speak are considered to have as mother tongue the language most often spoken in the home.

Census Division (CD): General term applying to counties, regional districts, regional municipalities, etc. There are 53 Census Divisions in Ontario.

Municipality: Area with corporate status governed by Provincial and Territorial Acts.

Census Subdivision (CSD): General term applying to municipalities, Indian Reserves, unorganized territories and subdivisions.

Census Metropolitan Area (CMA): The main labour market area of an urbanized core (or continuous built-up area) having 100,000 or more population. CMAs are created by Statistics Canada and are usually known by the name of their largest city. They contain whole municipalities (or census subdivisions). CMAs are comprised of (1) municipalities completely or partly inside the urbanized core, and (2) other municipalities, if (a) at least 40% of the employed labour force living in the municipality works in the urbanized core, or (b) if at least 25% of the employed labour force working in the municipality lives in the urbanized core. In 1976 there were 10 Census Metropolitan Areas in Ontario.

Component: The municipality or census subdivision forming part of a census metropolitan area or census agglomeration.

Note: The Municipality of Metropolitan Toronto is a component of the larger Toronto Census Metropolitan Area and is also a Census Division. It is comprised of the six area municipalities: the Cities of North York and Toronto, and the Boroughs of East York, Etobicoke, Scarborough and York, each of which is a Census subdivision.

Census Family: Consists of a husband and a wife (with or without children who have never married, regardless of age) or a lone parent, regardless of marital status, with one or more children (who have never married, regardless of age) living in the same dwelling.

Family Structure: Refers to the classification of census families into husband-wife families or lone parent families. HUSBAND-WIFE FAMILIES consist of a husband and a wife (with or without children), or persons who live common-law (with or without children). LONE PARENT FAMILIES consist of a parent, regardless of marital status, with one or more children living in the same dwelling.

Family Head (1971 definition): The husband in a husband-wife family, or the parent in a one-parent family.

Mobility Status - Place of Residence 5 Years Ago: Refers to the relationship between a person's usual place of residence on Census Day and his/her usual place of residence five years earlier. On the basis of this relationship, the population is classified as NON-MOVERS and MOVERS (MOBILITY STATUS). Within the category MOVERS, a further distinction is made between NON-MIGRANTS and MIGRANTS (MIGRATION STATUS). NON-MOVERS are persons who, on Census Day were living in the same dwelling they occupied five years earlier. MOVERS are persons who, on Census Day, were living in a different dwelling than the one occupied five years earlier. NON-MIGRANTS are movers who, on Census Day were living within the same census subdivision they resided in five years earlier. Migrants are movers, who, on Census Day, were residing in a different CSD within Canada five years earlier (INTERNAL MIGRANTS) or who were living outside Canada five years earlier (EXTERNAL MIGRANTS).

Inmate: Refers to a resident of an "institutional" collective dwelling, other than staff members and their families.

Remarks: "Institutional" collective dwellings are orphanages and children's homes, special care homes and institutions for the elderly and chronically ill, general hospitals, psychiatric hospitals, treatment centres and institutions for the physically handicapped, penal and correctional institutions, juvenile delinquent homes and jails.

In the 1981 Census, data for inmates were not collected for the one-fifth (1/5) sample variables: place of birth, citizenship, year of immigration, ethnic origin, religion, home language, official language, education (all components), mobility status, fertility, date of first marriage, labour force and work activity (all components), class of worker, occupation, industry, place of work and income. Therefore, all tabulations or output containing these sample variables will not include inmates. This is in contrast to the 1971 and 1976 Census data which did include inmates in many of the sample variable tabulations and output. There were approximately 215,000 inmates enumerated in Canada in the 1976 Census.

Labour Force: Refers to the labour market activity of the population 15 years of age and over, excluding inmates, who, in the week prior to enumeration (June 3, 1981) were **Employed** or **Unemployed**. The remainder of the working age population are classified as **Not in labour force**. The two components of the labour force are defined as below.

Employed: The Employed includes those persons who, during the week prior to enumeration:

- (a) did any work at all; or
- (b) were absent from their jobs or businesses because of own temporary illness or disability, vacation, labour dispute at their place of work, or were absent for other reasons.

Unemployed The Unemployed includes those persons who, during the week prior to enumeration:

- (a) were without work, had actively looked for work in the past four weeks and were available for work; or
- (b) had been on lay-off for 26 weeks or less and expected to return to their jobs; or
- (c) had definite arrangements to start a new job in four weeks or less.

Participation Rate: Refers to the percentage of the total labour force (in reference week) forms of the total population 15 years of age or over, excluding inmates, in an area, group or category. This is a derived variable.

Censuses: 1981 (1/5 sample), 1976 (1/3 sample), 1971 (1/3 sample), 1961

Reported for: Population 15 years of age and over, excluding inmates.

Remarks: In 1976 and 1971, while inmates were excluded from the labour force, they were normally included in the population in calculating participation rates.

Unemployment Rate: The percentage the unemployed labour force forms of the total labour force in the category or area.

Not in the Labour Force: The Not in labour force classification refers to those persons, who, in the week prior to enumeration, were unwilling or unable to offer or supply their labour services under conditions existing in their labour markets. It includes persons who looked for work during the last four weeks but who were not available to start work in the reference week, as well as persons who did not work, did not have a new job to start in four weeks or less, or did not look for work in the four weeks prior to enumeration. Most persons in this category would be students, homemakers, retired workers, seasonal workers in an "off" season who were not looking for work, and persons who could not work because of a long-term illness or disability. Inmates of institutions were not asked the questions on labour force activity in 1981 and therefore are excluded from the universe to which the data apply.

Labour Force, Experienced: Derived by deleting from the total labour force unemployed persons 15 years of age and over who have never worked or who had worked only prior to January 1, 1980.

Occupation: Refers to the kind of work persons 15 years of age and over, excluding inmates, were doing during the reference week, as determined by their reporting of their kind of work and the description of the most important duties in their job.
